

Global electricity leaders meet in San Diego to discuss common challenges

18/04/2013

The 2013 International Electricity Summit in San Diego on 8-9 April 2013 brought together electric industry leaders from the world's major electric industry associations, including the Edison Electric Institute of the United States, EURELECTRIC, the Federation of Electric Power Companies of Japan, the Canadian Electricity Association, the Energy Supply Association of Australia, and CIER (representing South and Central America and the Caribbean).

The industry leaders' discussion focused on four themes:

- The future of electricity;
- Fuel choices;
- Energy efficiency, distributed generation, smart grid and electric vehicles;
- Climate strategies.

The adopted conclusions are available [here](#).

The conclusions of the previous summit, hosted by EURELECTRIC in Rome in 2011, are available [here](#).
